Synopsis :

Few believed Professor Coldwell could commune with spirits. But in Scotland's oldest university town something has passed from darkness into light. Now, the young are being haunted by night terrors and those who are visited disappear. This is certainly not a place for outsiders, especially at night. So what chance do a rootless musician and burned-out explorer have of surviving their entanglement with an ageless supernatural evil and the ruthless cult that worships it? A chilling occult thriller from award-winning author Adam Nevill, *Banquet for the Damned* is both a homage to the great age of British ghost stories and a pacy modern tale of diabolism and witchcraft.
